Getting your ewes ready for lambing!

If you're thinking of creep feeding this year, have your Advantage feeders ready to go. Having the ewes use the feeders comfortably encourages them to take the lambs, once at foot, to the feeders. This familiarises the lambs around the feeders. Pop the creep panels on so the ewes can't access the feed once the lambs start feeding. Creep feeding the lambs from early on will help rumen development and help reduce stress in the weaning process by having a familiar food source.
