ARE YOU BUSHFIRE READY?

## GETTING THE BEST FROM YOUR STUBBLES

### ProDry feed supplement

Capturing the Best Value from Dry Feeds and Stubbles requires Early action.

#### The Opportunity

In the earlier part of the dry season, whilst residual seed, grain and leaf material remains available, standing feeds and stubbles represent real opportunity for live weight gain and wool growth.

The best option is to act early and to provide sheep with a simple micro-nutrient supplement designed to deliver growing and breeding sheep with optimum levels of the nutrients they require to gain live weight, grow wool and remain fertile.

#### Simple and Effective

ProAgni's dry feed formulation ProDry is designed to "Go Hard Early". It is formulated to deliver not just non protein nitrogen (urea) but combined with energy, vitamins, macro and micro minerals and bypass plant proteins, it delivers a more complete and production focused supplement.

By focusing on better managing microbial fermentation and a vibrant and healthy "bug" population, energy and protein production is maximised. Focusing on efficient fermentation results in more meat, more wool and more lambs in genetically improved animals, at an affordable daily cost. (dry feed supplements are no longer suitable when dry feed resources are exhausted)

If you would like to know more about the new feed supplements available or to organise to speak to David Horsnell to discuss products to suit your requirements please give us a call on 85640214

**MINI FIRE FIGHTER 4 IN 1**

Stops a small fire from becoming a major disaster.

A cutting-edge foam capable of extinguishing (Class A) wood, (Class B) petrol and flammable liquids, (Class E) electrical and (Class F) fat fires quickly.

The only 4-in-1 Fire Extinguisher certified in New Zealand and Australia for all four types of household fires.

High cooling capacity which helps avoid re-ignition.

Safe to store in extreme cold and hot temperatures ranging as low as -40°C and up to +70°C.

Swells up to 40 times its capacity when in use.

User friendly, no instructions needed - Just point and shoot.

Compact enough to keep a can handy where ever you need it - in the kitchen, garage, workshop, and every type of vehicle.

Easy to clean up after use. The foam dissolves leaving no residue; simply wipe clean.

Non-Toxic, non-irritant and biodegradable. The pure ingredients are minerals, salts and special patented oils.

Each Mini Firefighter is date-stamped underneath and has a shelf-life of 5 years from this date.

The E.SYBOX and E.SYBOXMINI3 are completely new solutions in rainwater harvesting and cold water boosting for residential and light commercial applications.

They are an all in one pump and control solution comprising water cooled booster pump with integrated high efficiency variable speed motor.

The water cooled motor and sound dampening casing creates the quietest booster pumps available today.

The variable speed pump allows large power savings and a histogram on the pump display shows how much power has been saved when compared to a fixed speed pump.
