Well 2019 is well in full swing and somehow it is now the end of January. School is back and time keeps flying by..

With rather extreme weather being experienced lately, I think it is important to make sure that your neighbours and friends are keeping well.

Check on pets and stock regularly, ensuring all have access to fresh water and feed.

We have a range of troughs & waterers available in store.

ADVANTAGE FEEDERS WORKSHOP

Advantage Feeders will be holding a workshop in Truro on Wednesday the 20th of February.

Please ensure you head over to their website or call them to register your interest. There is a \$20- fee that can be paid by cash on the day.

"It is often small changes that can make the biggest impact on profit. The half day workshops will provide you with a number of ideas and systems that are easy to implement when you return home.

- Our presentation – making the most out of your grass
- Complementary speakers – get more out of the event
- Product display – take the opportunity to view the products
- Get fed and socialise – have a chat with a snag in hand
- Fund raising – all proceeds generated are donated"

THE TE PARI SHEEP JETTER HELPS YOU CONTROL BOTH FLY AND LICE IN YOUR FLOCK.

Using 20 jets that are strategically positioned to target the affected areas. The TePari Sheep Jetter is a proven design based on simplicity and reliability that can process up to 1000 sheep/hour.

The TePari Sheep Jetter is predominantly manufactured from stainless steel, reducing the unit's weight to 56kg. The strong, compact frame has few moving parts which means less maintenance. The unit comes complete with all necessary pipe-work including camlock fittings and intake filter.
