The background of the central section is a soft-focus photograph of a rural landscape at sunset or sunrise. A tall, grey metal windmill stands on the left. In the distance, there is a small, dark, single-story house with a chimney. The sky is a mix of orange, yellow, and pink. The foreground is filled with tall, dry grass.

WHAT'S NEW @ WHITES

A STEEL FENCE POST with DUAL COATING – Limits Corrosion
Featuring Barrier-Shield™ technology, corrosion-resistant polymer wrap combines with the bituminous coating to form dual barrier against difficult soils.

Faster Fencing Latch Post

Stockfast Latch-Post features five integrated spring-steel latch-points for clipping barbed or plain wires, fast. The spring-steel latches have a positive-click to indicate the wire is secure. Alloy rivets ensure a longer rust-free life.

A fully hot-dipped galvanised end assembly system made with STOCKPOST® quality, for high performance without the high price tag.

Featuring a heavy-duty square steel Anchor Post with unique shark tooth points that cleverly cut through soil to avoid compaction for effortless driving. Each Anchor Post includes a steel cap, and the STOCKPOST® ground mark for easy fence line up at ground level.

The Stay Assembly Kit includes a 3m brace pipe with specially designed brace cap for ease of installation; a heavy-duty fire-proof base plate; and a notched threaded rod for easy tensioning. The Stockpost End Assembly range also includes an Anchor Post Driver, Gate Fittings and additional brace caps for 2, 3, and 4-way configurations.

CORDLESS FENCING STAPLER

World's first 4mm cordless fencing stapler

• Rapid Fire • Miles Faster • Lightweight • Cordless Technology

STOCKade® ST400i Cordless Stapler combines faster fencing with hose-free portability in a gas cartridge gun. The ST400i has outstanding power allowing you to fire up to 650 staples per fuel cell and in conjunction with the 3.7V Li-ion battery, you can fire 3000 barbed, divergent point staples per charge per battery. The ST400i kit also comes with 2 batteries so you will never run out of power.

- Impulse Technology - Portable, no need for compressors or air lines. High output design - drives up to 2 staples per second
- Ergonomic Design - Comfort for periods of high use. Hose free for work in remote situations
- Adjustable Depth of Drive - Greater flexibility for staple placement. Prevents wire damage and a superior finish
- Top Load Magazine - Fast and easy reloading. Rail protection bars
- V-Notch Guide & Sequential Trigger System - Correct staple placement for improved holding power. Improved operator safety

Ring Fasteners

RINGfast pneumatic fastener

The *RINGfast* pneumatic ring fastening tool quickly and consistently secures ring fasteners.

Faster than manual tools, reliable and relatively effortless, the pneumatic operation produces consistent rings fast, reducing manual effort and improving productivity.

The tool has been designed with an ergonomic grip and is balanced for comfortable operation. Made by Paslode and exclusively distributed by Whites Group.

- Quickly and consistently secures ring fasteners
- Reduces manual effort, improves productivity
- Ergonomic and comfortable to operate

Selecting an electric fence type

The best electric fence is the one that is suited to your requirements. Our table outlines the 3 main types of electric fence structures as a starting point to help you identify which fence type best suits your needs.

	<i>Portable / Temporary</i>	<i>Semi-Permanent / Permanent</i>	<i>Permanent / High-Tensile</i>
Length of Fence Placement	Short-moves frequently	up to 10 years*	20 years + *
Ease of Construction	Simple	Easy to medium	Medium Requires special tools or fencing contractor
Best Recommended for	Horses, cows, pets, domestic animals	Deer, horses, cows sheep, goats, pigs exotic animals	Deer, horses, cows sheep, goats, pigs exotic animals, predators
Containment Area	Short/Small	Unlimited	Unlimited
Primary Need	Temporary containment, stripgrazing	Pastures and internal fencing	Boundary and internal fencing
Key Benefits	Easy to install and relatively inexpensive. Offers greatest flexibility and portability	Can use any combination of post and wire types	Optimum strength for livestock management. Longer fence life with minimal maintenance.
