The K7 MINILUBE® Portable High Pressure Manual Greasing System provides high-volume/high-pressure greasing in a compact and portable package.

It consists of two main components, a foot operated spring-loaded pump, that dispenses grease from the container to the hose and gun and a patented high pressure/high volume KR pressurite™ gun.

When the gun is set on the high volume position the gun will deliver up to 5,000 psi and when set on the high pressure setting the gun will deliver a lower volume of grease, but at higher pressures (up to 10,000 psi). The K7 is an economical alternative to the more expensive air-operated greasing systems

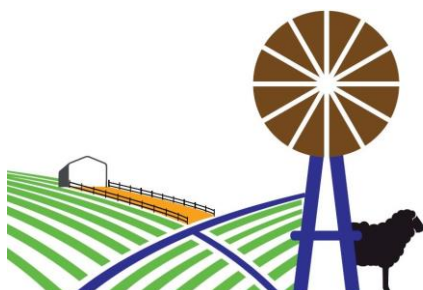

KEY FEATURES

- Pressure & Volume Settings
- Compatible with 2.5kg Containers
- 1.5m Flexible Delivery Tube
- Manual Greasing System
- Light Weight
- Portable
- Push Down Foot Operation
- 360° Swivel to Gun

Diesel Engine Oil

Recommended for use in all naturally aspirated and turbocharged diesel engines fitted in trucks, tractors, buses, LCV's and off-highway equipment, agricultural and fixed plant machinery.

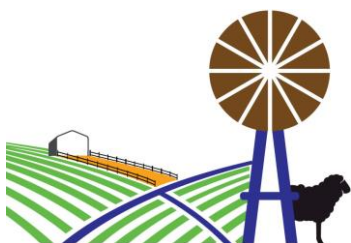

FLEETMASTER 15W/40 C!-4

*Hi-Tec Fleetmaster 15W/40 is a heavy duty **diesel engine** oil for use in multi fleet diesel applications in normally aspirated & turbocharged engines. It is especially effective at sustaining engine durability where cooled EGR and other exhaust componentry is used.*

Castrol Magnatec

Castrol MAGNATEC, one of Castrol's leading engine oil brands, has been helping motorists protect their car engines for almost 20 years by offering instant protection from the moment you start. The intelligent molecules in Castrol MAGNATEC are specially formulated to cling to critical engine parts, and dramatically reduce engine wear.

Motor Bike Oil

A part synthetic engine oil, the Power Release Formula in POWER1 4T 10W-30 is designed to enable bikes to deliver maximum and sustained power, right up to very high operating RPM.

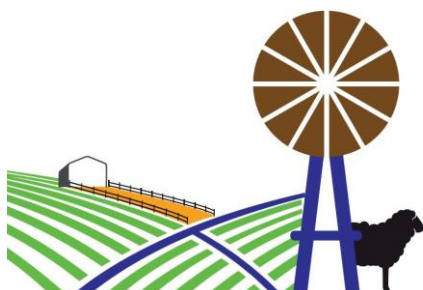

Castrol POWER1 4T specially developed 'Power Release Formula' helps to flow fast and reduces internal power losses to friction, giving maximum and sustained power right up to very high operating RPM. With the added Castrol advantage of Trizone Technology™ Castrol POWER1 provides uncompromising performance protection of engine, clutch and gears.

Tested and proven to deliver superior acceleration at the touch of the throttle, POWER1 4T 10W-30 is suitable for use with catalyst equipped engines.

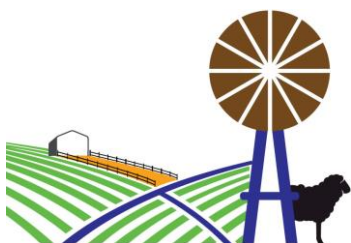

With the growing trend toward lower viscosity oils from many manufacturers - including Honda - Castrol POWER1 4T 10W-30 is suitable for use in a wide range of bikes.

It is suitable for all makes of 4-stroke bikes, both carburetted and fuel injected

Castrol GTX

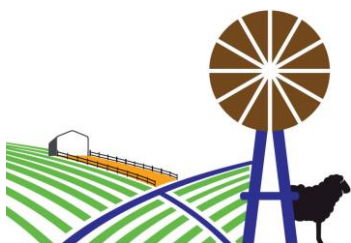

CASTROL GTX PRODUCT RANGE

Castrol GTX is one of the world's most trusted engine oils. It's more than just oil. It's liquid engineering that protects against problems, like sludge, that your engine faces every day.

The Double Action formula of Castrol GTX cleans away old sludge* while protecting against new sludge formation, better than tough industry standards.

FIND THE BEST ENGINE OIL FOR YOUR MOTORCYCLE WHAT IS MOTORCYCLE ENGINE OIL?

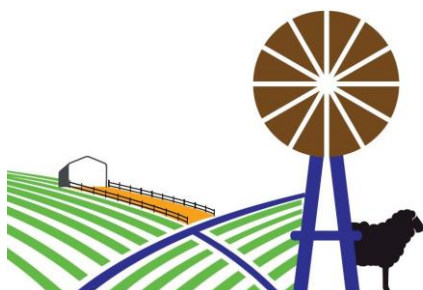

Continuous protection for your vehicle. **Castrol Activ** is like a 24x7 bodyguard that protects your motorbike / scooter from stressful everyday commutes in the city. It's superior technology delivers Continuous Protection at all times for your motorcycle / scooter engine.

In 2-Stroke motorcycles the engine oil is lubricant that is continuously injected into the crankcase and burned with each combustion cycle. It must prevent piston scuffing and effectively lubricate bearings, at the same time resisting deposit formation and smoke emission.

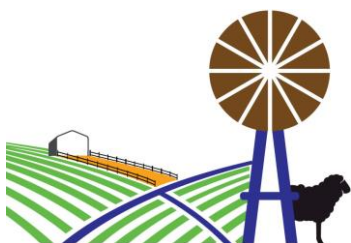

In 4-Stroke motorcycles the engine oil must simultaneously meet the high-stress protection requirements of the engine, the friction requirements of the clutch pack and the wear protection requirements of the gearbox.

Bike Care

CASTROL CHAIN SPRAY O-R

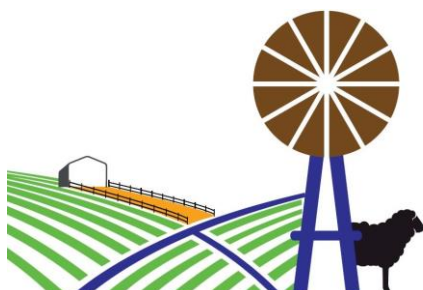

Castrol Chain Spray O-R has been specially formulated to effectively lubricate all motorcycle chains and sprockets. Non-chlorinated solvents are used to ensure prolonged ring life.

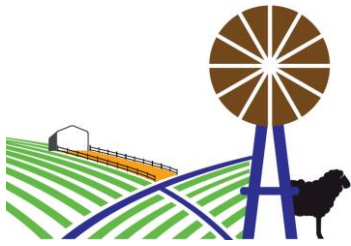

CASTROL FOAM AIR FILTER OIL

Castrol Foam Air Filter Oil has been specially formulated for application to "wet type" foam air filters to four and two stroke engines. Through a carefully designed balance of selected base oils and additives, the product provides excellent performance in preventing airborne dirt and abrasive particles from passing through the fuel intake system into the combustion chamber.

Gear Oil

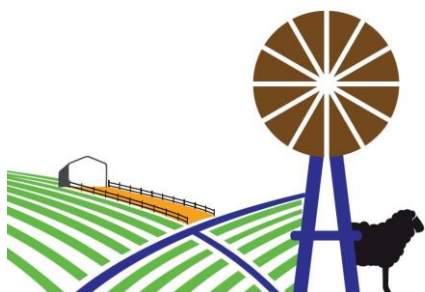

Castrol ATF Dex II may be used in GM automatic transmissions pre 1993 and power steering units of many types of vehicle where Dexron IID or Mercon performance is required.

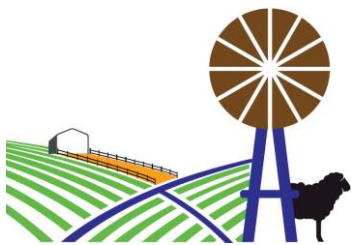

Multipurpose Axle oil which may be used in differentials, final drives and other applications

Recommended for use in differentials, gear boxes and steering gears of cars. Castrol Axle EPX 85W-140 should be considered for use over the lighter Castrol Axle EPX 80W-90 when ambient temperatures are high (in the vicinity of 30C or above).

Grease

Castrol Agri Grease Ultra is a high performance grease developed for use in a wide range of farm and associated machinery applications. This includes cars, trucks, 4WD's, pumps etc.

HTB 2

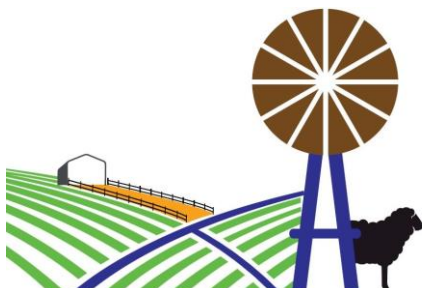

Ideal for front wheel bearings in cars with disc brakes operating at very high temperatures

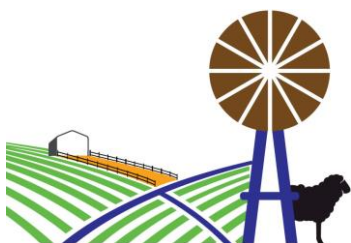

High temperature extreme pressure tacky lithium complex multipurpose grease with molybdenum disulphide for automotive and industrial applications

Hi-Tec Super Red Grease is an NLGI No. 2 grease possessing superior lubrication characteristics. It is recommended for bearing lubrication under operating service conditions from normal to unusually severe.

Lubricants

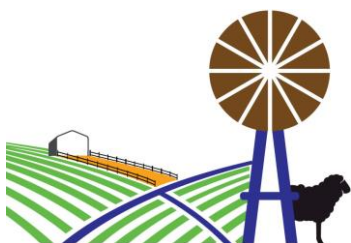

Recommended for penetrating rust and corrosion, freeing components bonded by dirt & scale, preventative maintenance programs, as an environmental shield eliminating breakdowns due to poor environmental exposure, such as high humidity/salt air, for lubrication of contacts.

INOX will cover most of the applications most of the times where an anti-corrosion lubricant is required, but there are times when a heavier, longer lasting anti-corrosion lubricant is needed to do the job. 4 years of research and testing went into LANOX before it was brought to the market. About 70% of the time LANOX and INOX can be used for the same application, INOX is more suitable for the lighter applications such as electrical, fishing, garage doors, hobbies etc. and LANOX is suitable for the more extreme climate and high humidity conditions.

Aerosol Cleaners

MOTORTECH CONTACT & CIRCUIT BOARD CLEANER 400G

Degreaser and quick drying cleaner. Ideal for relays, printed circuit boards, fuse blocks, Electronic controls and computer equipment.

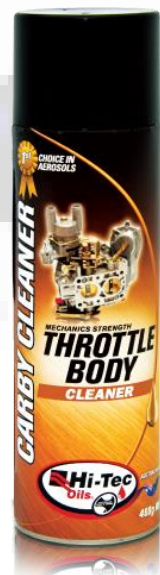

Hi Tech Brake Cleaner 400g

For the removal of brake fluid, oil, and other contaminants from brake drums, linings, pads cylinders, and springs. Can be applied without disassembly of brakes.

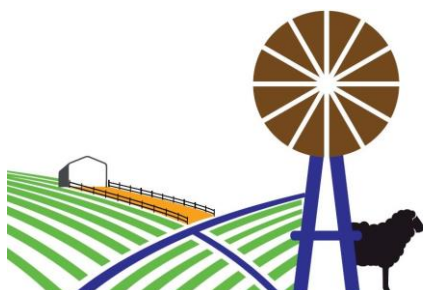

Repco Engine Start is a high potency, highly concentrated, highly flammable formulation designed to instantly start difficult-to-start engines. Helps with the following issues:

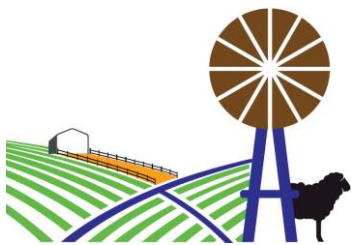

- Old or stale fuel : Low battery condition
- Poor choke operation ; Cold ambient temperature
- Insufficient engine cranking speed, particularly on manual start engines such as motor mowers, small motorcycles etc.

Throttle Body & Air Intake Cleaner is an effective blend of liquid hydrocarbon cleaning compounds specifically formulated to remove harmful deposits from throttle bodies and air intake systems in fuel injected vehicles.

Cleaning

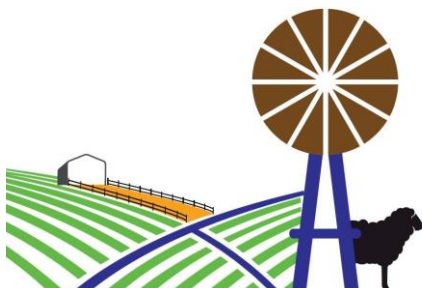

BIOTRANS QB

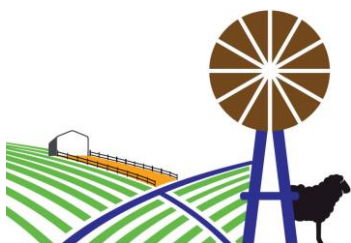

High foaming biodegradable detergent for removing dirt, traffic haze, oil and grease from all vehicles. May be used for washing boats and motorcycles.

FEATURES & BENEFITS

- Has quick-break properties to assist in waste water disposal via separator equipment
- Suits a multitude of applications which can reduce inventory of products on site
- Suitable for use in hard, soft and salt water environments
- AQIS declaration available – suitable for use in food industry
- Enables thorough cleaning of surfaces and can be foamed
