

Stock Feeding

KEY FEATURES

- Reduce Waste
- Light Weight
- Easily Moved
- Galvanised
- Stainless Steel Components

Grain Feeders

Our grain feeders are engineered significantly different to any other stock feeders on the market.

The ADVANTAGE FEEDERS 3 way restriction system is the most precise ration control method commercially available today. The system uses Upper & Lower Adjusters & an Adjuster Guard to control height, width & depth of where the feed sits.

The Advantage Feeders have been specifically designed to prevent stock manipulation with:

Multiple Adjustment Setting Options including:

- Ad-Lib feeding
- Controlled Feeding
- Creep Feeding
- Creep Panels
- Creep Gates.

ADVANTAGE FEEDERS carry a 5 year warranty on all products.

Check out all the options @ www.advantagefeeders.com.au.

Truro Agencies will take delivery of the flat packed feeders & assemble in our workshop, ensuring your new feeder is delivered complete & ready to go.
