

LITRESTROKE® FUEL PUMP

- **Macnaught's HP Litrestroke** is a hand operated, lever action piston pump for dispensing diesel, kerosene, ULP and light oils (up to SAE30) from 60L - 205L drums or tanks.
- The HP Litrestroke delivers 1L per stroke and is able to achieve flow rates of up to 40L/min which makes it suitable for most common fuel transfer applications.
- Includes 2.4m anti-static hose, ULP/diesel nozzle and an in-built nozzle holder to prevent spillage.
- The HP Litrestroke is also suitable for users who either cannot use an electric fuel pump for safety reasons or do not have access to power in remote locations.
