SpitzLift 1200 w/Surface Plate Kit

The 1200 Spitzlift Lightweight Portable Crane with the **surface plate** is designed to mount to any solid horizontal surface, whether it be a truck top, ute tray, concrete slab or jetty, Spitzlift is the versatile loading device for many applications.

Multiple plates can be mounted around a truck tray, trailer or job site and utilise the one crane.

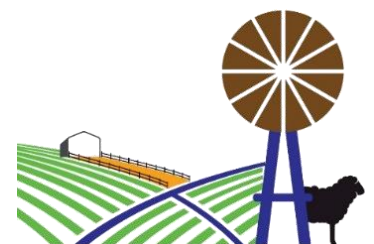

One person can easily set up and operate the crane saving in labour and alleviating many OH&S issues.

The crane and pivot tube can be left permanently in place and is light enough to quickly dismantle and store in minutes.

Available with 12v or 24vDC Electric option c/w wiring harness, fuse, quick connect lead and pendant remote c
